Activity 3: Rabies Signs Cut and Paste

Foxes that have rabies may act differently than normal.

Signs show up in two main ways: "angry" rabies or "quiet" rabies.

"Angry" Rabies

"Quiet" Rabies

Name: _____ Date: _____

Instructions: Cut out the phrases and paste them into the correct column, under "angry" rabies or "dumb" rabies.

✂ act excited and aggressive

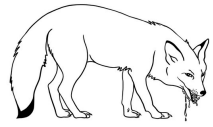

✂ have difficulty walking

✂ lose their fear of humans and are unusually friendly

✂ drool or "foam" from their mouths

✂ act confused, look groggy, and slow to react

✂ bite or chew their own legs

✂ attack other animals or objects without fear or reason

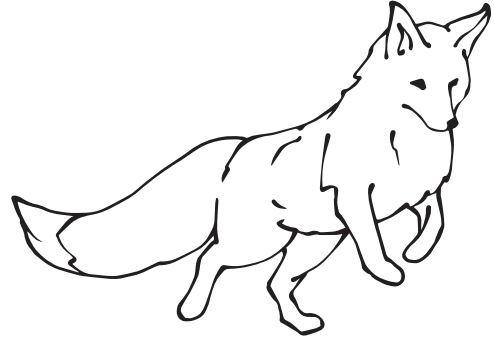

Exit Ticket
