

Your dog is due for a vaccine, if...

You have a puppy.

Puppies require multiple vaccines when they are young to protect them from common illnesses they may get from other dogs or wildlife.

It's been 1+ years since their last vaccine. Time for a booster!

Your dog has never had a vaccine before. Protect your dog from rabies and other common illnesses!

Even if your dog is up to date on their vaccinations, it is still recommended that they see the veterinarian for an annual exam to ensure they are happy and healthy
